Appreciation Letter

On behalf of Atlantis The Palm, we would like to extend our great appreciation and thanks to MGK for the support they have given us with the 'Dry Ager' refrigerator.

Since our use of Dry Ager, we have had a lot of success with quality of our products. Where apart from temperature, the right and accurate humidity is electronically controlled that produces a very high and consistent quality products.

With exceeded expectations, I highly recommend the use of Dry Ager and a must for any steak house that high demands on the quality of meat sets and to the great visual impact it has in a steakhouse due to its design.

Sincerely yours,

Sascha Triemer

Vice President, Food & Beverage, Atlantis The Palm
